

re:discover @ art karlsruhe 2027 – Funding program for artists in an advanced creative phase and their galleries

Over the past three years, the program has received financial support from the Federal Government Commissioner for Culture and the Media (BKM) and has been organized, implemented, and funded by art karlsruhe and the BVDG. It honors artistic positions that, despite their quality and despite the continuous creation of original works of art, have not been able to achieve lasting national or international visibility, recognition, and to build up a collector base. By presenting the selected individual positions in the re:discover section, the aim is to make artistic work that has received insufficient recognition visible and effective again for a wider audience.

Galleries that are accepted as exhibitors at **art karlsruhe** can – subject to continued funding from the federal government – apply for a **25 m² free re:discover booth** in addition to their own regular booth at **art karlsruhe**. The funding booths will be relocated within the regularly booked stand space to ensure permanent placement during the fair.

→ **Application deadline: September 18, 2026**
